National endorsement has been given the plan of beautifying the Lincoln Highway through the planting of memorial trees along this transcontinental route, in honor of the American soldiers and sailors who gave their lives in the service of their country. Children in Bad Surroundings.

A petition has been filed in the county court against William Van Natta, who has been bailing his twelve miles northwest of town, charging him with neglect of his four girls ranging in age from three to thirteen years of age. These children, with several other persons are living in a little shack that is unfit for even keeping cattle; the mother being dead they have no parental care, and the conditions under which they are growing up will tend to cause such children to lead vicious and immoral lives. The petition asks the court to commit the children to a suitable institution or find homes for them. Van Natta will appear in court in a day or two and the case be threshed out.

Pith of Today's News.

A counter revolution is in full swing in Germany. The reactionaries are attempting to dissolve the councils of workmen and soldiers. The Hamburg Echo, organ of the Social Democrats, claims that the sailors and harbor workers are threatening to refuse to work on any ships which are likely to be equipped for trips to the United States for the purpose of transporting food.

Reports from London say that the blockade against Germany will not be lifted, as the provisions of the armistice forbid such action. Efforts had been made to raise the blockade in order that Germany might obtain food.

The population of Vienna is reported in a desperate situation owing to a lack of food. Each of the ten soup kitchens are feeding 6,000 men daily. General improvement in the health of soldiers in home army training camps and cantonments is shown by the report of the surgeon general for the week ending Nov. 22. New cases of influenza numbered 3,396, compared with 4,485 the week before, and there were decreases in admissions for other diseases.

Already Paris is badly overcrowded and the indications are that convening of the peace conference will see conditions unprecedented in any other city. It will practically be out of the question to get rooms in any of the hotels. Already delegates of the various allied powers have reserved hundreds of rooms for themselves and their staffs of secretaries. In some instance whole hotels have been requisitioned.

More than a million and a half prisoners of various nationalities have been released by the Germans, according to estimates based upon reports received by the American Third army. Of this number approximately 250,000 will pass thru the American lines and will be fed by the Americans.

The question of demanding the extradition of the ex-kaiser of Germany will be considered at London next week at a preliminary peace conference of interallied chiefs, including Premier Clemenceau and Marshal Foch.

Protestant Episcopal Services.
Dec. 1, 1918, First Sunday in Advent: 9:45 a. m., Sunday School; 11 a. m., Litany Sermon and Holy Communion; 7:30 p. m., Evening Prayer and Address. St. Paul's Chapel, North Side, 3:00 p. m., Sunday School.

We ask every member to note the re-opening of the Church and urge you to be present at least at the eleven o'clock services, that we may show forth our Thanksgiving to God for his great benefits bestowed upon us during the past year.

Rev. A. D. Jones, Rector.

The editor of the Baltimore Sun, who has just returned from abroad, published a lengthy article in his paper yesterday in which he predicts a clash between the allies when they surround the peace table. England, he says, will want to "pick the German bone" to which the United States will object, and states further that the English and French high commands have no love for General Pershing and are loth to give the Americans credit for their work. It may be possible that General Pershing forces trouble at the peace conference and to this is due his demand that the American army of occupation be not less than 1,400,000 men.

You Can Do Better Work

Many a man has found that he makes fewer mistakes, does better work and more of it, and feels more fit at the end of the day since he took to wearing glasses. The reason is simple. Properly fitted glasses gave him clearer vision without the eye strain that causes headaches, nervousness, tired, aching eyes. Of course, he can do better work.

You can, too, if you let Clinton's optometrist take care of your eyes.
